

THE SCENE AI / CREATOR OS

START HERE

THE SCENE OS

Your full plan, from character idea to posted episode.

CREATE THE CHARACTER. DIRECT THE SCENE. BUILD THE WORLD.

PART 01 OF 19

THE
SCENE AI

CREATE CINEMATIC CONTENT.
BUILD YOUR DIGITAL WORLD.

How to use this system

The SCENE AI is not a pile of random prompts. It is one connected system for creators. Do the modules in order the first time. Once your character is locked in, come back to just the modules you need for each new episode.

STEP	MODULE	RESULT
1	Character First	Choose who the audience will follow.
2	Prompt Pack	Build the MASTER, DNA sheet, body lock and expression library.
3	The SCENE Method	Direct Story, Cast, Environment, Now Build and End Stamp.
4	The SCENE Library	Pick tomorrow's story in thirty seconds.
5	Outfit + Hair Systems	Lock the look for each episode without changing who the character is.
6	Reference Blueprint	Give every image you upload a clear job.
7	Continuity System	Make Part 2 look like it begins one second after Part 1.
8	Camera + Realism	Put the camera in a believable spot. Catch the details that make AI look fake.
9	Vault + Story	Build the final master prompt. Post, study the response, build the next episode.

Your road map

START HERE**1****CHARACTER FIRST**

MODULE 01

Pick who your audience will follow.

2**PROMPT PACK**

MODULE 02

Make your MASTER face and DNA photos.

3**THE SCENE METHOD**

MODULE 03

Direct your first scene: story, cast, place.

4**THE SCENE LIBRARY**

MODULE 04

Pick tomorrow's story in thirty seconds.

5**OUTFIT + HAIR**

MODULES 05 + 06

Lock the look for every episode.

6**REFERENCE BLUEPRINT**

MODULE 07

Give every photo you upload one job.

7**CONTINUITY SYSTEM**

MODULE 08

Make Part 2 match Part 1.

8**CAMERA + REALISM**

MODULES 09 + 10

Shoot it real. Catch anything fake.

9**VAULT + STORY**

MODULES 11 + 12

Build the final prompt. Grow the world.

POST IT

What is included

- › Module 01 — Character First
- › Module 02 — The Prompt Pack
- › Module 03 — The SCENE Method
- › Module 04 — The SCENE Library
- › Module 05A — Women's Outfit Pack
- › Module 05B — Men's Outfit Pack
- › Module 06A — Women's Hair Pack
- › Module 06B — Men's Hair + Grooming Pack
- › Module 07 — The Reference Blueprint
- › Module 08 — The Continuity System
- › Module 09 — Camera Bible
- › Module 10 — Realism Check
- › Module 11 — The Prompt Vault
- › Module 12 — The Viral Story Blueprint
- › Bonus 01 — Hook Vault
- › Bonus 02 — Caption Vault
- › Bonus 03 — Comment Blueprint
- › Bonus 04 — The SCENE Files

Your tool kit — the apps you need

You need five tools: one that writes your prompts, one that makes photos, one that turns photos into video, one that controls the motion, and one that edits it all together.

THE JOB	THE TOOL	TIP
Write and store your prompts	ChatGPT (or Claude)	Save your master template there. Every episode is a small edit.

THE JOB	THE TOOL	TIP
Make the face, photos and poses	ChatGPT image or Nano Banana Pro	Generate your MASTER here, plus extra angles and poses.
Turn it all into video	Seedance 2.0	It accepts multiple reference images at once – attach them ALL.
Control the motion	Kling	When a shot needs to move a specific way – camera or character.
Edit, captions and sound	CapCut	Free and enough. Cut, caption, post.

THE PIPELINE — EVERY EPISODE MOVES LEFT TO RIGHT

Prompt · photos · Seedance 2.0 with ALL references · Kling for motion · CapCut.

The bigger your scenes get, the more reference images you attach at once — one for identity, one for hair, one for the outfit, one for each location. The full multi-reference master template is in Module 11.

- › Pick ONE tool per job, learn it once, and stay there — switching apps every week is how characters drift.
- › Free versions are fine to start. Upgrade when episodes are working.
- › Upload your MASTER photo into every tool, every time.
- › Keep the SAME tools for a whole series.

Tools change fast. If a new app comes out, the system still works — the prompts and the method do not change.

MY TOOL KIT

My prompt-writing tool:

My photo tool:

My video tool:

My motion tool:

My editing app:

My keyword (one word):

Write your six picks, then post them in your intro – that is your kit, locked. Your keyword is the one word people will comment to get what you make. Keep it short, easy to spell, and yours.

NEXT STEP

Go to MODULE 01 — CHARACTER FIRST

THE SCENE AI / CREATOR OS

SHARE YOUR WORLD.

Post your episodes with #THESCENEAI so your work gets seen.

New scene drops, packs and tools land every month inside
