How this works

This is a free taste of THE SCENE AI Creator OS. Three steps. Copy, paste, post.

About an hour, start to first post.

- › Pick him or her — both prompts are below.
- › Fill in every [BRACKET] with your own words.
- › Run the prompt until you love ONE face. Save that photo. That photo is your MASTER — your character's ID card.
- › From now on, never generate this character without uploading the MASTER first.

Step 1 — Make her face

COPY THIS PROMPT PASTE IT INTO YOUR AI TOOL

A realistic front-facing selfie of a [AGE]-year-old [ETHNICITY] woman, taken on a phone. She is clearly [ETHNICITY] with [SKIN TONE] skin and beautiful, true-to-her features. Naturally gorgeous, the kind of face that stops you scrolling, but soft and bare with no makeup.

Real skin texture, natural glow, [KEY FEATURES, e.g. full lips, high cheekbones, expressive eyes]. [HER ENERGY / WALL, e.g. quietly hopeful, wanting something she won't say out loud].

Her hair is [HAIRSTYLE, e.g. a natural low bun / a sleek middle-part sew-in / a silk press / long loose waves]. Wearing a [SIMPLE TOP]. Tiny stud earrings only, minimal jewelry.

Natural indoor window light, plain everyday apartment background. Authentic, candid phone selfie, not studio, not glam, but undeniably beautiful. Clearly a [SKIN TONE] [ETHNICITY] woman, real.

(If she drifts too pretty, older, or off from who you want, add: "less glam, not older, keep her [ETHNICITY] and [SKIN TONE], more ordinary" and run again.)

Or make his face

COPY THIS PROMPT PASTE IT INTO YOUR AI TOOL

A realistic front-facing selfie of a [AGE]-year-old [ETHNICITY] man, taken on a phone. He is clearly [ETHNICITY] with [SKIN TONE] skin and beautiful, true-to-his features. Naturally handsome, the kind of face that stops you scrolling, but natural and unfiltered with no beauty filter.

Real skin texture, natural glow, [KEY FEATURES, e.g. full lips, high cheekbones, expressive eyes]. [HIS ENERGY / WALL, e.g. quietly hopeful, wanting something she won't say out loud].

His hair is [HAIRSTYLE, e.g. a natural low bun / a sleek middle-part sew-in / a silk press / long loose waves]. Wearing a [SIMPLE TOP]. Minimal jewelry. Preserve culturally and personally appropriate grooming.

Natural indoor window light, plain everyday apartment background. Authentic, candid phone selfie, not studio, not glam, but undeniably beautiful. Clearly a [SKIN TONE] [ETHNICITY] man, real.

(If he drifts too pretty, older, or off from who you want, add: "less glam, not older, keep him [ETHNICITY] and [SKIN TONE], more ordinary" and run again.)

Step 2 — Post your first hook

A hook is one normal moment with one thing wrong. Generate a short clip or photo of your character in this moment, and do not explain it:

COPY THIS PROMPT PASTE IT INTO YOUR AI TOOL

Use the uploaded image as the exact identity reference. Same person, same face, same skin tone. No identity drift. Scene: a server delivers a drink to [HIM / HER] from an unknown guest at a nice restaurant. Your character reacts with a small, real expression — curious, not shocked. Vertical 9:16, natural light, shot like phone footage. Real skin texture, believable shadows and lighting. No plastic skin, no extra fingers, no warped background.

Caption it with this and nothing else:

COPY THIS PROMPT PASTE IT INTO YOUR AI TOOL

Now who sent this over...

Step 3 — Pin this comment

The comment section is where views turn into followers. Post this from your own account and pin it:

PIN THIS — EVERYONE HAS AN OPINION

YOU · Creator

Be honest — would you take the drink or send it back?

PINNED

What happens next

Here is the problem you will hit tomorrow: you will generate your character again, and the face will drift. Different nose, different skin, different person. That is the moment most people quit.

THE SCENE AI Creator OS is the fix — 19 modules that lock the identity, style the look (him AND her), direct the camera, keep Part 2 matching Part 1, and turn one character into a world people follow like a show.
