MODULE 01

CHARACTER FIRST

Decide who your audience will follow before you make a single image.

CREATE THE CHARACTER. DIRECT THE SCENE. BUILD THE WORLD.

THE SCENE AI

CREATE CINEMATIC CONTENT.
BUILD YOUR DIGITAL WORLD.

Why this comes first

AI can make a beautiful face in seconds. But a face with no story is still just a picture. A strong character has a real role and a clear identity. They have a starting point, one wall (one big problem), and something they want. That is what makes people watch the next episode.

Choose your path

PATH A - AI TWIN	PATH B - FICTIONAL CHARACTER
Upload a clear selfie of yourself, or of another adult who has said yes. Skip Prompt 1 in the Prompt Pack. Use Prompts 2 and 3 to build a matching AI version of that person.	Create a brand-new woman or man from scratch. Do Prompt 1 in the Prompt Pack. Pick the image that feels like your character. Save it as the MASTER. Then do Prompts 2 and 3.
IMPORTANT Only make an AI twin of another real person if they gave you permission to use their face.	

Build the character with 8 choices

1. ROLE

Who is this person in the story? A creator, founder, artist, customer, parent, partner, employee, traveler, realtor, musician or fictional lead?

2. AUDIENCE

Who should see themselves, their wants or their world in this character?

3. STARTING POINT

Where is their life before the story starts? Think feelings, friends and work.

4. ONE WALL

Pick one clear problem. One wall keeps the story focused. Five walls confuse people.

5. DESIRE

What do they really want behind that wall? Confidence, attention, belonging, freedom, love, status, safety, clarity or a new beginning?

6. PERSONALITY

How do they talk, move, react, dress and handle stress?

7. VISUAL IDENTITY

Age range, ethnicity, skin tone, face details, hair, grooming, body type, tattoos, piercings, go-to accessories and clothing style. (Their full closet and hair systems get built later, inside THE WORLD BUILDER - right now, just write who they are.)

8. WORLD

Where do they fit best? Buckhead, a resort, a studio, an office, a tour bus, a salon, a family home, a campus or nightlife?

Body type is part of the identity plan

Body type is not a beauty score. It is a rule that keeps your character looking the same. Pick words that truly describe the character. Use the same words in the MASTER and the full-body DNA sheet.

WOMEN / FEMME CHARACTERS	MEN / MASC CHARACTERS
slim, petite, athletic, curvy, hourglass, thick, plus size, natural BBL, dramatic BBL, tall, short, fuller bust, wider hips, long legs, short torso	slim, lean, athletic, muscular, stocky, broad-shouldered, big and tall, plus size, dad build, defined, natural build, tall, short

Scroll-stopping and real

SCROLL-STOPPING	REAL
Different enough to make people stop scrolling. A clear face, energy, style and point of view.	Real enough that people can step into the story. Natural skin, distinct features, human expressions and a life beyond looking perfect.

Your Character Blueprint

_____ Character name

_____ Pronouns

_____ Age range

_____ Ethnicity / cultural identity

_____ Skin tone

_____ Face shape and key facial features

_____ Natural hair texture / typical grooming

_____ Signature hairstyle

_____ Height and body type

_____ Tattoos, piercings, facial hair or marks

_____ Occupation / role

_____ Personality in three words

_____ Speaking style

_____ Starting point

_____ One wall

_____ Core desire

_____ Typical locations

_____ Signature wardrobe

_____ Recurring accessories / props

_____ Supporting relationships

_____ What the audience should feel

Fill every line. This blueprint IS your character - Module 02 turns it into a face.

Now go to the Prompt Pack

REQUIRED NEXT STEP

Before you start The SCENE Method, open Module 02: The Prompt Pack. Making a fictional character? Do Prompts 1, 2 and 3. Making an AI twin? Upload your selfie, skip Prompt 1, and do Prompts 2 and 3. Save the MASTER, the headshot DNA sheet and the full-body DNA sheet. Then move on to Module 03: The SCENE Method - your first episode.

NEXT STEP
