MODULE 07

THE REFERENCE BLUEPRINT

Give every uploaded image one clear job.

CREATE THE CHARACTER. DIRECT THE SCENE. BUILD THE WORLD.

THE SCENE AI

CREATE CINEMATIC CONTENT.
BUILD YOUR DIGITAL WORLD.

Why your prompts work

Do not just upload random images and hope the AI understands. That does not give strong results. Your prompt must tell the AI exactly what each image controls. It must also say what each image must never change.

The core reference order

REF	JOB	WHAT IT CONTROLS
1	Identity	The exact face, skin tone, ethnicity, face shape, and body. This matters most.
2	Outfit / grooming	The exact clothes, shoes, bag, jewelry, hair, or facial hair.
3	Environment	The place: buildings, furniture, lighting, crowd, and mood.
4	Composition / continuity	The pose, camera framing, the last episode, or the exact opening frame.
5	Product / prop / supporting character	A bottle, bag, car, food, device, second person, or branded item.
6+	Specialized control	Extra details: makeup, nails, signs, camera angle, action, weather, or a second location.

Copy-and-paste reference block

Master reference mapping block

COPY THIS PROMPT PASTE IT INTO YOUR AI TOOL

```
REFERENCE IMAGES (USE ALL REFERENCES TOGETHER) Reference 1 - Identity Reference (Highest Priority) Use this image as the exact identity source. Preserve the exact face, skin tone, ethnicity, facial structure, eyes, nose, lips, brows, hairline, body proportions and overall appearance. Do not let any other reference alter identity.
```

© THE SCENE AI - Destyni Triplett. Member copy - not for resale or redistribution.

```
Reference 2 - Outfit / Grooming Reference Use this image only for wardrobe, shoes, accessories, hair and grooming. Preserve the exact person from Reference 1.

Reference 3 - Environment Reference Use this image only for location, lighting, architecture, furniture, crowd and atmosphere. Do not borrow faces or bodies from this reference.

Reference 4 - Composition / Continuity Reference Use this image for camera placement, framing, pose and continuity with the previous episode.

Reference 5 - Product / Prop / Supporting Character Use this image only for the named object or supporting person. Preserve exact shape, proportions, color, label and placement when visible.
```

Do not waste reference slots

- Use a reference only for details the AI must see. If words can describe it clearly, use words.
- Give your character's identity, and any repeat characters, their own reference images.
- Use an outfit image when the exact cut, print, or accessories matter.
- Use a product image when the shape, label, cap, color, or size must stay exact.
- Use a frame from the last episode when two clips must join with no visible break.
- Do not upload several images that fight for the same job. If you do, say which one wins.
