REFERENCE IMAGES (USE ALL REFERENCES TOGETHER)
```

© THE SCENE AI - Destyni Triplett. Member copy - not for resale or redistribution.

Reference 1 — Identity Reference (Highest Priority)
Use this image as the exact identity source. Preserve the exact face, skin tone, ethnicity, facial structure, eyes, nose, lips, eyebrows, hairline, hairstyle, eyelashes, body proportions, and overall appearance. Do not beautify, face swap, or alter the identity in any way. Maintain the exact same identity from the first frame to the last frame.

Reference 2 — Outfit Reference
Use this image as the exact wardrobe reference.
Preserve:
- [TOP OR SET]
- [BAG OR ACCESSORY]
- [HAT — worn or in hand]
- [SHOES]
- [JEWELRY]

Reference 3 — Location Reference (real event photo)
Use this image as the exact location. This is a real photo booth setup from a live event. Match the backdrop, lighting rig, flooring, and booth structure exactly.

IDENTITY LOCK (HIGHEST PRIORITY)
Use the uploaded identity reference as the exact person. Preserve the same face, skin tone, ethnicity, facial structure, eyes, nose, lips, eyebrows, hairline, hairstyle, eyelashes, body proportions, and overall appearance. Do not beautify, face swap, or alter the identity. No face drift. No identity drift. Maintain the exact same identity throughout the entire video.

CAMERA
Filmed on [YOUR PHONE MODEL] front-facing camera. Vertical 9:16. Generate in native 4K. 60 FPS. Natural HDR. Default phone color science. Authentic handheld selfie. Very slight handheld movement. Tiny autofocus breathing. Natural exposure adjustments. Slight rolling shutter. Looks exactly like genuine phone footage uploaded directly to Instagram. No cinematic filters. No beauty filters. No skin smoothing.

HANDS
The phone is naturally held in [HER / HIS] right hand. The left hand naturally rests on [THE BAG / HIP]. Do not generate a second phone. Do not generate another camera. Do not generate any additional recording devices.

SCENE
The video begins with the character stepping up to the photo booth line.
[SHE / HE] glances at the backdrop and says, "[LINE 1 — e.g. Wait, this is actually so cute...]"
The booth attendant waves them forward.
[SHE / HE] steps in, poses once, and the flash goes off.
[SHE / HE] turns the phone to show the printed strip and says, "[LINE 2 — the line people will comment about]"
The clip ends naturally on the printed photo strip in hand.

MOVEMENT
Natural posture. Natural shoulder, arm and hip movement. Natural breathing. Natural blinking. Natural facial expressions. The outfit flows naturally. Nothing appears robotic or overly animated.

REALISM (HIGHEST PRIORITY)
The final result must be visually indistinguishable from authentic phone footage. Ultra-photorealistic 4K quality. Natural skin texture. Visible pores. Subtle baby hairs. Natural facial texture. Realistic eye reflections. Natural teeth. Correct hand anatomy. Correct finger anatomy. Natural fingernails. Physically accurate lighting. Realistic shadows. Consistent identity throughout every frame. No face morphing. No identity drift. No flickering. No warping. No duplicated limbs. No extra fingers. No plastic skin. No AI artifacts.

ATMOSPHERE
[SETTING — e.g. a packed live event, string lights and event signage in the background]. Natural environmental audio only. No background music. No sound effects. Natural speaking voice.

LENGTH
15 seconds.

STYLE
The first three seconds must create immediate curiosity through a natural, unstaged feel. The pacing should feel effortless, like the character instinctively grabbed the phone to show someone the photo strip. The video should look so authentic that viewers question whether it is AI or a real event vlog.

Tool notes

- The 3-step method behind this drop: an idea chat first (no character, just ask for scene ideas), then real reference photos from an actual event, then your locked character chat to combine them.
- Batch mode: ask for 10 variations at once instead of one at a time, then refine with short follow-ups like "batch mode 10 more, make the jacket black instead."
- Video: Seedance 2.5 syncs lips best on clips of 10 seconds or less. Keep spoken lines 5–10 words.
- Photos: batch your poses in Nano Banana Pro or Seedream 4.5 right after you lock a new outfit — 6 to 10 angles per look.
- Higgsfield Genjutsu: instead of generating a scene from nothing, find a real event clip and use motion transfer to replace the person in it with your MASTER — same
