05. Fall leaves fall in frame on cue, like the season timed it.

06. A corn maze dead-ends at a bench that wasn’t there on the map.

07. The bonfire gets lit the second the character sits down.

08. A caramel apple gets handed over already wrapped with a name on it.

09. The golden hour light holds two minutes longer than it should.

Reference 1 — Identity Reference (Highest Priority)
Use this image as the exact identity source. Preserve the exact face, skin tone, ethnicity, facial structure, eyes, nose, lips, eyebrows, hairline, hairstyle, eyelashes, body proportions, and overall appearance. Do not beautify, face swap, or alter the identity in any way. Maintain the exact same identity from the first frame to the last frame.

Reference 2 — Costume Reference
Use this image as the exact wardrobe reference.
Preserve:
- [COSTUME PIECE 1]
- [COSTUME PIECE 2]
- [ACCESSORY]
- [SHOES]
- [MAKEUP STYLE — if applicable]

Reference 3 — Location Reference
Use this image as the exact location. The video begins in this [ROOM / HALLWAY / DOORWAY].

IDENTITY LOCK (HIGHEST PRIORITY)
Use the uploaded identity reference as the exact person. Preserve the same face, skin tone, ethnicity, facial structure, eyes, nose, lips, eyebrows, hairline, hairstyle, eyelashes, body proportions, and overall appearance. Do not beautify, face swap, or alter the identity. No face drift. No identity drift. Maintain the exact same identity throughout the entire video.

CAMERA
Filmed on [YOUR PHONE MODEL] front-facing camera. Vertical 9:16. Generate in native 4K. 60 FPS. Natural HDR. Default phone color science. Authentic handheld selfie. Very slight handheld movement. Tiny autofocus breathing. Natural exposure adjustments. Slight rolling shutter. Looks exactly like genuine phone footage uploaded directly to Instagram. No cinematic filters. No beauty filters. No skin smoothing.

HANDS
The phone is naturally held in [HER / HIS] right hand. Do not generate a second phone. Do not generate another camera. Do not generate any additional recording devices.

SCENE
The video begins with the character standing just out of frame of a mirror or doorway, costume already on.
[SHE / HE] takes a breath and says, "[LINE 1 — e.g. Okay, here we go...]"
[SHE / HE] turns to face the mirror or steps through the doorway, revealing the full costume.
Hold the reveal naturally for about two seconds.
[SHE / HE] smiles at the reflection or camera and says, "[LINE 2 — the line people will comment about]"
The clip ends naturally on the reveal.

```
MOVEMENT
Natural posture. Natural shoulder, arm and hip movement. Natural breathing. Natural blinking. Natural facial expressions. The costume flows naturally. Nothing appears robotic or overly animated.

REALISM (HIGHEST PRIORITY)
The final result must be visually indistinguishable from authentic phone footage. Ultra-photorealistic 4K quality. Natural skin texture. Visible pores. Subtle baby hairs. Natural facial texture. Realistic eye reflections. Natural teeth. Correct hand anatomy. Correct finger anatomy. Natural fingernails. Physically accurate lighting. Realistic shadows. Consistent identity throughout every frame. No face morphing. No identity drift. No flickering. No warping. No duplicated limbs. No extra fingers. No plastic skin. No AI artifacts.

ATMOSPHERE
[SETTING — e.g. dim warm bedroom light, string lights in the background]. Natural environmental audio only. No background music. No sound effects. Natural speaking voice.

LENGTH
15 seconds.

STYLE
The first three seconds must create immediate curiosity through a natural, unstaged feel. The pacing should feel effortless, like the character instinctively turned to show someone the finished look. The video should look so authentic that viewers question whether it is AI or a real costume reveal.
```

Tool notes

- The 3-step method still applies: an idea chat first, real reference photos (costume inspo, real haunted house or orchard photos), then your locked character chat to combine them.
- Batch mode: ask for 10 variations at once instead of one at a time, then refine with short follow-ups like "batch mode 10 more, make the cape longer."
- Video: Seedance 2.5 syncs lips best on clips of 10 seconds or less. Keep spoken lines 5–10 words.
- Photos: batch your poses in Nano Banana Pro or Seedream 4.5 right after you lock a new costume — 6 to 10 angles per look.
