CREATE + GROW

EVERY NEW EPISODE

Once your character is built, this is the small loop you repeat.

EXAMPLE EPISODE

A creator walks into a meeting.

Their unreleased product is already sitting on the table.

SCENE A normal meeting turns into a surprise partnership conversation.

HOOK Open on the product already sitting there. Do not explain it.

BUILD Choose the office, outfit, cast, references, camera, and continuity.

CREATE Generate the shots and motion.

POST End before the answer. Let people ask what happened.

SCENE > HOOK > BUILD > CREATE > POST

Then repeat with the next episode.

FIRST TIME VS. NEXT EPISODE

Walk the full road once. Then use the system like a toolbox.

FIRST TIME

FOLLOW THE ROAD

Learn what every tool does once.

- 1 Build your character
- 2 Learn the SCENE Method
- 3 Pick a story + hook
- 4 Build the world
- 5 Create + post

NEXT EPISODE

JUMP WHERE YOU NEED

Your character is already built.

- 1 Need an idea? SCENE Library
- 2 Need an opening? Hook Vault
- 3 Need consistency? World Builder
- 4 Need the final prompt? Prompt Vault
- 5 Then create, post, repeat

ONE SYSTEM. DIFFERENT TOOL FOR EACH JOB.

You do not restart everything before every post.

Use the map. Find the problem. Open that tool. Keep creating.
